

Job Description – Electrical Engineer

Job Title: Electrical Engineer

Reports to: Engineering Department Manager

POSITION SUMMARY:

Browns Hill is looking for an electrical engineer with 3+ years experience to fill a full-time position at its Littleton, Colorado office. The ideal candidate will provide electrical and controls design for projects as well as engineering assistance for projects within the company as assigned, work to make sure assignments are completed within budget and on schedule, and communicate effectively with team members on project status and needs.

KEY DUTIES & RESPONSIBILITIES:

1. Complete all system design & control projects (wiring diagrams, schematics, etc) accurately and in a timely manner.
2. Assist the Department Manager in the development of company standards for drawings, wiring diagrams, installation details, and specifications.
3. Proactively coordinate with project managers, programmers, field technicians, and clients.
4. Assist the Dept Manager in promoting and marketing the Company.
5. Support other departments by providing design work and programming as needed.

DESIRED QUALIFICATIONS:

1. 3+ years experience in electrical engineering.
2. Experience with AutoCAD and MS Office suite.
3. BSEE degree from an ABET accredited university in engineering highly preferred.
4. Excellent interpersonal and communication skills.
5. Strong technical and analytical proficiency with the ability to multi-task effectively and thrive in a team environment.
6. EIT certification and programming experience desirable.
7. Familiarity with water/waste water applications a plus.
