

Job Description – Field Technician

Job Title: Field Technician

Reports to: Field Technician Supervisor

POSITION SUMMARY:

Browns Hill is looking for a Field Technician to fill a full-time position based out of its Littleton, Colorado office. The ideal candidate will perform all assigned field work associated with both contract and service jobs for the company. This individual will establish good relationships with the associated clients and communicate onsite conditions and work results to supervisors, project managers and other parties affiliated with the job, as appropriate.

PRIMARY RESPONSIBILITIES:

1. Complete assigned field tasks, including (but not limited to):
 - a. Startup and/or calibration of electrical equipment and instrumentation.
 - b. Perform any necessary PLC and HMI programming edits.
 - c. Troubleshoot and repair equipment as needed.
 - d. Develop changes when required to assist clients or to make equipment or processes work.
2. Coordinate with client and/or project managers to understand the scope of work involved and ensure tasks are completed both timely and in a manner that meets or exceeds customer expectations.
3. Assist in creating change orders if additional work is required beyond the original project scope.
4. Maintain high standards of professional conduct and honor all internal and external commitments.
5. Assist in promoting and marketing the Company.
6. Follow the Company's safety guidelines at all times.

DESIRED QUALIFICATIONS:

1. Proficient at various PLC & HMI programming languages.
2. Knowledge of electrical and control systems.
3. Excellent interpersonal and communication skills.
4. Strong technical aptitude coupled with commitment to on-going training & development to stay current with changes in the industry.
5. Proficiency with Microsoft Office (Outlook, Word, Excel).
6. Familiarity with water/waste water applications desirable.
